Makes Oiling a Breeze

Multiple functions to achieve complete lubrication

iCare
Automatically Lubricates

Learn how to get the most out of your equipment from the people who make it.

What we provide

A **FREE** education session in your practice, suitable for all dental personnel. Focusing on correct reprocessing and use of NSK equipment, ensuring a longer lifespan of your equipment.

→ Dedicated Specialist

NSK specialist will help you align your maintenance procedures to best practices.

→ Procedure manuals

Our team will help to develop procedures to implement into your practice.

→ On-going support

Follow up sessions for new staff as well as direct support for any future requirements.

Sessions are 1 hour and must be booked in advanced.

Sessions we offer

HANDPIECES & LUBRICATION

- Understanding the different types of handpieces and how they work
- Hands-on reprocessing training to align with manufacturers recommendations and current standards
- Identifying common faults and how to overcome them

cleaning | lubricating | sterilisation

SURGICAL EQUIPMENT

- Set up and programming of your surgical unit
- Calibration of handpieces and motors
- Hands-on reprocessing training to align with manufacturers recommendations and current standards
- Identifying common faults and how to overcome them

programming | reprocessing | calibrating

ORAL HYGIENE EQUIPMENT

- Set up and programming of your oral hygiene unit
- Hands-on reprocessing training to align with manufacturers recommendations and current standards
- Identifying common faults and how to overcome them

set up | programming | reprocessing
